## 2016 - 2017 NSYSA AGM VP of Comp Report

Date: 26 March 2017

1. I have received from a good source that there will be some significant change to the playing rules from WYS.
  - a. The setback line will be implemented to the U11 & U12 game with the 2017 season.
  - b. No heading will be allowed for player ages 12 YO and below.
  - c. No punting is being talked about for U12 and below.
  - d. Other changes may be coming forward.
  
2. I have created a document which combines the Administrative Processes of both Small Sided and full Sided documents. The rules of play will remain within their own procedural documents. But the administrative rules are often diverse of one another when being maintained in separate documents. This is confusing and misleading for coaches with teams in both Small Sides and Full Sided Leagues.
  
3. “Coaches Reports” are not being fully utilized as an asset for the managing of the Leagues sponsored within NSYSA. This action is not solely to record Sportsmanship ratings and scores.
  - a. Sportsmanship ratings are a 1 - 4 range. If a coach is registering a 1 or 2 for their assessment of the opposing teams conduct / play, this coach must provide a narrative as to why this low score is being entered.
  - b. Clubs monitoring these ratings should apply these reports, to mentor and encourage conduct or play for the teams.
  - c. It discouraging when reviewing comments speaking to poor conduct by parents, coaches, and players.
  - d. Language is often expressed as an issue.
  - e. Clubs are asked to acknowledge and implement the WYS Respect campaign. This campaign is recommended to be reviewed at the start of the season meetings.

4. Referees are a diminishing resource. We all must seek to find new blood for the ranks of Kitsap Peninsula Referee Association.

# NORTHWEST SOUND YOUTH SOCCER ASSOCIATION NSYSA

5. Referees are not the primary means of control. Their position only allows for that time of the match they attempt to control.
  - a. Coaches have greater opportunity to use practice and game time to set example and raise expectations for standards of conduct.
  - b. The characteristic of allowed conduct at practices is exactly how the game will be played. Let's get the control started in the practice, which will help to clean up the game.
  
6. Mother Nature was not been kind to us. We have had upwards of 150 games canceled due to a variety of reasons. Some were been rescheduled. Most were not.
  - a. It is hoped that the addition of new turf fields will reduce the impact of bad weather.
  - b. Late season weather has caused many games not to be played.
  - c. As many as 150 games were not played as a result of field closure and weather.
  
7. I have attached a spreadsheet of the breakdown of games by Club and League.
  - a. I am pleased that fewer games reflect canceling than I would have expected.
  - b. Scheduling activities versus games does reflect an amount of churn in the scheduling process.
  
8. I have also included a matrix of comparison for game results for age and gender.
  - a. The methodology of creating the breakdown of age and division seems to support large variances in some ages.
  - b. At the older high school age brackets this pairing may not be avoided.
